NOTICE OF OPPOSITION

Intuitive Surgical, Inc. ("Intuitive Surgical") believes that it will be damaged by the registration of the mark DA VINCI CENTER & Design, which is the subject of Application Serial No. 78/710,291, and hereby opposes registration of the same under the provisions of Section 13 of the Trademark Act of July 5, 1946, as amended, 15 U.S.C. § 1063, and Trademark Rule 2.101, 37 C.F.R. § 2.101.

Application Serial No. 78/710,291 for the mark DA VINCI CENTER & Design was filed in the name of Da Vinci Center, L.L.C. on September 9, 2005 and was published for opposition in the *Official Gazette* on December 18, 2007, with the description of services for the application reading "Post medical degree educational services, namely, conducting classes, seminars, conferences, tutorial sessions, courses

and workshops for post graduate degree medical professionals in the fields of surgery, surgical techniques, orthopedics and medicine, and development and dissemination of medical educational materials in connection therewith" ("the Application").

On January 14, 2007, Intuitive Surgical filed a Request for Extension of Time to File Notice of Opposition to the Application, which Request was granted. A true and correct copy of correspondence granting said Request is attached hereto as Exhibit A.

As grounds for the opposition, Opposer alleges that:

1. Opposer Intuitive Surgical is a Delaware corporation having its principal place of business at 1266 Kifer Road, Building 101, Sunnyvale, California 94086-5304.

2. Intuitive Surgical manufactures and sells, in interstate commerce, computerized surgical manipulation systems and associated parts under the mark DA VINCI. Intuitive Surgical has continuously offered and sold computerized surgical manipulation systems and associated parts under the DA VINCI mark since at least as early as July 7, 2000.

3. Intuitive Surgical is the owner of record of Registration No. 2,628,871, Application Serial No. 75/982,190, filed on March 19, 1999, for DA VINCI for use in connection with "computerized surgical manipulation system comprised of surgeon's console, master control, immersive video display, camera image processing equipment, surgical manipulation system software and instructional manuals provided as a unit, patient-side cart with set-up arms and manipulator slave arms, sterile adaptors to connect arms to instruments, and a full line of resposable, in other words, limited re-use tools, namely, laparoscopes, endoscopes, trocars, cannulas, cutters, clamps, elevators, gouges, knives, scope preheaters, light sources, cables and component parts, electrosurgical instruments, electrocautery instruments, laser instruments, ultrasound instruments, lens cleaning, scrub and biopsy brushes, clip applicators and clips, tack applicators and tacks, applicators, ligature carriers, needle holders, clamps, hemostats, graspers, curettes, instrument guides, ligature passing and knotting instruments, needles, retractors,

snare, stylets, forceps, dissectors, calipers, scissors, suction and irrigation probes, sterile drapes, hemostats, amputation hooks, osteotomes, saws, retainers, suturing apparatus, measuring tapes, chisels and contractors, files, skin graft expanders, lancets, mallets, pliers, hammers, rasps, spatulas, and strippers; a full line of FDA Classes I and II exempt surgical instruments, namely, scalpels, scalpel blades and handles, staplers, tackers, clip applicators, electrocautery tools, forceps, needle holders, guides and drivers, graspers, and kiteners" in International Class 10. A copy of the aforementioned registration is appended to this Notice of Opposition as Exhibit B. The foregoing registration is currently valid and subsisting. Intuitive Surgical has continuously offered and sold computerized surgical manipulation systems and associated parts under the DA VINCI mark since at least as early as July 7, 2000.

4. Intuitive Surgical is also the owner of record of Application Serial No. 76/665,748 filed on September 8, 2006, for DA VINCI S HD SURGICAL SYSTEM (Stylized) for use in connection with "computerized surgical manipulation system comprised of surgeon's console, master control, immersive video display, camera image processing equipment, surgical manipulation system software and instructional manuals provided as a unit, patient-side cart with set-up arms and manipulator slave arms, sterile adaptors to connect arms to instruments, and a full line of resposable, in other words, limited re-use tools, namely, laparoscopes, endoscopes, trocars, cannulas, cutters, clamps, elevators, gouges, knives, scope preheaters, light sources, cables and component parts, electrosurgical instruments, electrocautery instruments, laser instruments, ultrasound instruments, lens cleaning, scrub and biopsy brushes, clip applicators and clips, tack applicators and tacks, applicators, ligature carriers, needle holders, clamps, hemostats, graspers, curettes, instrument guides, ligature passing and knotting instruments, needles, retractors, snares, stylets, forceps, dissectors, calipers, scissors, suction and irrigation probes, sterile drapes, hemostats, amputation hooks, osteotomes, saws, retainers, suturing apparatus, measuring tapes, chisels and contractors, files, skin graft expanders, lancets, mallets, pliers, hammers, rasps, spatulas, and strippers, surgical instruments, namely, scalpels,

scalpel blades and handles, staplers, tackers, clip appliers, eletrocautery tools, forceps, needle holders, guides and drivers, graspers, and kiteners" in International Class 10. A copy of the Official Filing Receipt for the application is appended to this Notice of Opposition as Exhibit C.

5. Intuitive Surgical is also the owner of Application Serial No. 76/672,142 filed on February 2, 2007, for DA VINCI S for use in connection with "Computerized surgical manipulation system comprised of surgeon's console, master control, immersive video display, camera image processing equipment, surgical manipulation system software and instructional manuals provided as a unit; medical apparatus, namely, patient-side cart with set-up arms and manipulator slave arms for use in computerized surgical manipulation systems; medical apparatus, namely, sterile adaptors to connect arms to instruments for use in computerized surgical manipulation systems; a full line of resposable limited re-use tools and instruments for medical use, namely, laparoscopes, endoscopes, trocars, cannulas, cutters, clamps, elevators, gouges, knives, scope preheaters, light sources, cables and component parts, electrosurgical instruments, electrocautery instruments, laser instruments, ultrasound instruments, lens cleaning, scrub and biopsy brushes, clip appliers and clips, tack appliers and tacks, applicators, ligature carriers, needle holders, clamps, hemostats, graspers, curettes, instrument guides, ligature passing and knotting instruments, needles, retractors, snares, stylets, forceps, dissectors, calipers, scissors, suction and irrigation probes, sterile drapes, hemostats, amputation hooks, osteotomes, saws, retainers, suturing apparatus, measuring tapes, chisels and contractors, files, skin graft expanders, lancets, mallets, pliers, hammers, rasps, spatulas, and strippers; surgical instruments, namely, scalpels, scalpel blades and handles, staplers, tackers, clip appliers, electrocautery tools, forceps, needle holders, guides and drivers, graspers, and kiteners" in International Class 10. A copy of the Official Filing Receipt for the application is appended to this Notice of Opposition as Exhibit D.

6. Intuitive Surgical has invested millions of dollars in the advertising and promotion of its trademarks DA VINCI, DA VINCI S HD SURGICAL SYSTEM (Stylized), and DA VINCI S (the "DA VINCI Marks") for its computerized surgical manipulation systems and associated parts and, upon information and belief, the DA VINCI Marks have become well-known and recognized as Intuitive Surgical's marks among consumers in the relevant industry.

7. As a result of Intuitive Surgical's extensive investment and effort in promoting the DA VINCI Marks for its computerized surgical manipulation systems and associated parts, the DA VINCI Marks have, upon information and belief, come to be recognized by consumers as well-known marks uniquely associated with and belonging to Intuitive Surgical.

8. Upon information and belief, Da Vinci Center, L.L.C. is a Florida limited liability company with its principal place of business at 3020 N.W. 82 Avenue, Miami, Florida 33122. Applicant Da Vinci Center, L.L.C. is the current owner of record of Application Serial No. 78/710,291.

9. Applicant seeks registration for the designation DA VINCI CENTER & Design allegedly to be used for "Post medical degree educational services, namely, conducting classes, seminars, conferences, tutorial sessions, courses and workshops for post graduate degree medical professionals in the fields of surgery, surgical techniques, orthopedics and medicine, and development and dissemination of medical educational materials in connection therewith" under the Application.

10. Applicant's proposed mark DA VINCI CENTER & Design is confusingly similar to Intuitive Surgical's previously used and registered DA VINCI Marks and, when used in connection with the purported medical and surgical educational services, is likely to cause confusion or mistake or to deceive.

11. Intuitive Surgical is not connected in any way with Applicant or the proposed use by Applicant of the DA VINCI CENTER & Design mark for medical and surgical educational services as set forth in the Application.

12. Intuitive Surgical's DA VINCI Marks are of sufficient fame and have a sufficient reputation among consumers such that, if and when the mark set forth in the Application is used for medical and surgical educational services, a connection with Intuitive Surgical will be presumed by consumers.

13. Upon information and belief, Applicant's proposed use of DA VINCI CENTER & Design will disparage Intuitive Surgical, falsely suggest a connection with Intuitive Surgical, or bring Intuitive Surgical into disrepute.

14. The registration of Applicant's alleged DA VINCI CENTER & Design mark on the Principal Register would be inconsistent with Intuitive Surgical's rights under the aforementioned registration and common law, and would be damaging to Intuitive Surgical.

WHEREFORE, Intuitive Surgical requests that Application Serial No. 78/710,291 be rejected, that no registration be issued in connection with the Application and that the Board rule in favor of Opposer in this Opposition Proceeding.

New Developments at the Trademark Trial and Appeal Board

TTAB forms for electronic filing of extensions of time to oppose, notices of opposition, petition for cancellation, notice of ex parte appeal, and inter partes filings are now available at <http://estta.uspto.gov>. Images of TTAB proceeding files can be viewed using TTABVue at <http://ttabvue.uspto.gov>.

TRADEMARK TRIAL AND APPEAL BOARD RULE CHANGES

The USPTO has issued new rules pertaining to TTAB proceedings. Parties are urged to familiarize themselves with the new rules.

Among other changes, for any notice of opposition filed on or after November 1, 2007, the new rules require an opposer to provide proof of service of the notice of opposition upon the applicant at the time the notice of opposition is filed. Trademark Rule 2.101. (Parallel amendments to Trademark Rule 2.111 require a petitioner to include proof of service of the petition for cancellation.) Service may be made by any of the means set out in Trademark Rule 2.119(b). A certificate of service is adequate proof of service; service by a process server is not necessary. A notice of opposition (or petition for cancellation) filed without a certificate of service will not be instituted.

The notice of final rulemaking and a chart summarizing the changes contained in the notice are available for viewing on the TTAB web page:

Requirements for Maintaining a Federal Trademark Registration

SECTION 8: AFFIDAVIT OF CONTINUED USE

The registration shall remain in force for 10 years, except that the registration shall be canceled for failure to file an Affidavit of Continued Use under Section 8 of the Trademark Act, 15 U.S.C. §1058, upon the expiration of the following time periods:

- i) At the end of 6 years following the date of registration.
- ii) At the end of each successive 10-year period following the date of registration.

Failure to file a proper Section 8 Affidavit at the appropriate time will result in the cancellation of the registration.

SECTION 9: APPLICATION FOR RENEWAL

The registration shall remain in force for 10 years, subject to the provisions of Section 8, except that the registration shall expire for failure to file an Application for Renewal under Section 9 of the Trademark Act, 15 U.S.C. §1059, at the end of each successive 10-year period following the date of registration.

Failure to file a proper Application for Renewal at the appropriate time will result in the expiration of the registration.

No further notice or reminder of these requirements will be sent to the Registrant by the Patent and Trademark Office. It is recommended that the Registrant contact the Patent and Trademark Office approximately one year before the expiration of the time periods shown above to determine the requirements and fees for the filings required to maintain the registration.
